

# William Gilmore

Full Stack Web Developer

Phone: (608) 449-4041  
Email: [williamwgilmore@gmail.com](mailto:williamwgilmore@gmail.com)

## EXPERIENCE

### Aspire Food Group

2017-2018

#### Junior Web Developer

- Worked cross-team to gather UI/UX input and alter product accordingly in a fast-paced environment
- Provided upper tier support for arising production issues
- Authored production code changes at the feature and bug levels
- Technologies: C#, Javascript, jQuery, AJAX, JSON, HTML, Bootstrap, CSS, SQL

### Aspire Food Group

2016-2018

#### Farm Technician

- Improved workflows and trained new employees

### Epic Systems

2015-2015

#### Quality Assurance

- Designed, found bugs, and improved the usability of Epic's Medical software
- Collaborated with developers and QA to create projects and designs
- Triaged cross application work to team members
- Managed UI/UX for my team, including a usability test for Epic's UGM event.

## PROGRAMMING KNOWLEDGE

Javascript, HTML, CSS, jQuery, Bootstrap, Git, Node.js, Express, MySQL, JSON, C#, ASP.NET, MVC, Canvas, MongoDB, React.js, Redux, Java, Python, PHP, REST, Heroku, Auth0

## PROJECTS

### Immigration Assistance Application

We created a project to allow immigrants to find pro bono lawyers who could help them complete complicated paper work.

[https://github.com/Shaverda/immigration\\_app](https://github.com/Shaverda/immigration_app)

### Game Host

A game site I created just for fun. It uses Canvas, React, Redux, and Auth0.

<https://github.com/williamwgilmore/gamehost>

## EDUCATION
